## About me

I'm 20 years old. I'm a fourth year student of BNTU. Since September 2021 I have been taking courses from RS School. During this time, I completed six projects. My last project in the course: development of an English language learning application. It was my first experience of team development. Next, I want to learn new things and develop in this direction. I also have a level of English A2+ and I am currently studying for an English language course.
